How To Clean a Bowling Ball? 5 Simple, Easy, And Effective Steps

Do you notice that your ball doesn't roll as smoothly as it used to? One possible reason for this could be that your bowling ball needs a good cleaning.

Over time, bowling balls can accumulate dirt and oil, causing them to lose their grip and become less effective on the lanes. So how to clean a bowling ball?

Apply the ball cleaner solution to the microfiber towel or chamois cloth and rub it onto the surface of the ball in a circular motion. Make sure to cover the entire surface of the ball, including the finger holes and thumb hole. Then, wipe off the excess cleaner with a dry portion of the cloth

I've found that regularly cleaning bowling balls not only improves its performance but also helps to extend their lifespan. For a more detailed step-by-step procedure, read the post.
